ISIKSAN
ISIKSAN HEATING SYSTEMS

ABOUT US

www.thermall.com.tr

In 1990, heating with 'heating radiator systems technology', had to develop a lot of products that to be easy life for peoples. In this period, our team closely followed the developments in the heat sector, has analyzed the need in the field well and in 1998, "IŞIKSAN HEATING SYSTEMS" company was founded. Our company, primarily Turkey's first 'Can be load in an Apartmanet Solid Fuel Boilers with Alarm System' model producted with **FIRELINE** mark. product diversity. In 2015, the company launched the **THERMALL** branded products in order to renew its products and brands.

IŞIKSAN HEATING SYSTEMS, solid fuel boiler, work place stove, boiler, expansion tank and heat exchanger production as well as heating, natural gas and installation equipment installation, proving itself in the heating of detached villas, flats, duplex villa type houses and workplaces up to 1000 m², wholesale and retail sales also provide complete services.

IŞIKSAN HEATING SYSTEMS, which has become more and more talked about with its expert staff, superior service quality, customer oriented approach and life-facilitating heating solutions, has become a company that will become a brand of the future.

OUR VISION

To solve the health problems caused by the warming problem, to develop the heating solutions that are the main theme and to make life easier by making life easier.

OUR MISSION

Advanced technology, strong equity, high human values, representing international norms and becoming a brand in the sector.
